One of the best professors I have come across in the recent times. His enthusiasm while teaching is infectious and it is hard not to fall in love with the subject along with him (owing due credits to his presentation style!). He is also very friendly and caring, enhancing the overall learning experience.

Really good coursework and teaching. My only feedback would be to scale down the number of tests. Three tests with six weeks between each test would be ideal. Also, if some form of student discussion can be enforced, that would be great.

Remarks :

Thank you sir for the course! The lectures provided an in-depth coverage of convergence concepts and a formal introduction to the theory of random processes, which was very valuable. I particularly appreciated the emphasis on formal mathematical proofs throughout the course. Sir your dedication extends beyond delivering the course material.

Thank you

Karthik Sir taught the course rigorously and helped in understanding the course content well. Sir did all that a prof teaching a course can do. Learning the applications using the concepts helps students a lot and makes them interested in the course, which Karthik Sir did from Day 1. I expect Sir to continue his best work in upcoming semesters

 Remarks :

I really liked that every topic was explained properly and it was not assumed that the students would know everything beforehand. This really helps in understanding the current topic at hand.
 The exam structure and division of marks across different quizzes and tests is well balanced.
 The only problem i felt was extending the class over the 1.5 hr time slot. I understand in the flow its difficult to break but sticking to time is also important. We have classes from morning onwards , sometimes, have class right before this slot (of 1.5 hr) (for this sem) . It's really hard to keep the focus after 3 hrs of continuous lecture and it gets annoying.
 If given chance I'll definitely take another course offered by you sir.
 Thankyou for being so sweet and generous throughout the course.
